2-Player Battle Mode

Enter the Level Select code (see previous code). One of the available options should be 2-Player Battle mode. This also enables you to check out the ending of the game.

Extra Continues Trick

In 1-player mode, press the Start button on the player 2 controller before you die. You will now control the player 2 submarine and continue from where you died as player 1.

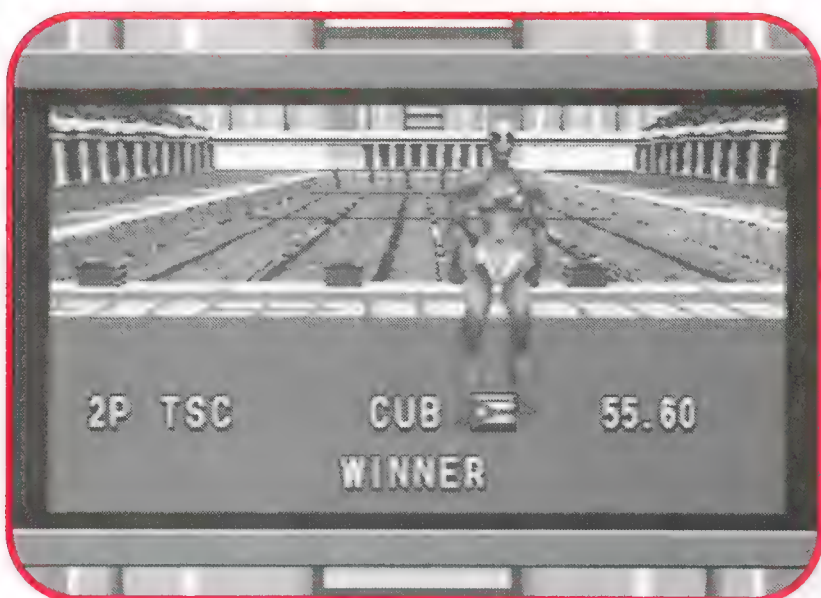

Unlimited Continues

After using all your continues, during the countdown press **▲ + Select + Start** simultaneously to get five additional credits. You can enter this code as many times as you want.

INTERNATIONAL TRACK AND FIELD

Bikini Mode

At the Game Select screen, highlight 100m Free Style and press **Up, Up, Down, Down, Left, Right, Left, Right, ●, and X**. When the race starts, the swimmers will be wearing bikinis.

Hide Gauges

During any event (but not in Practice Mode), press Pause. Then press and hold down L1, L2, R1, R2, ▲, ■, ●, and X.

You can now use the D-Pad to move the screen up and down. This enables you to center the picture better and even hide the power bar and qualifying times for more challenging gameplay.

When Doves Fly

During the Discus event, when the distance of the first two numbers of a throw matches the last two, doves fly across the field. (For example, a distance of 23.23m works.)

Balloons

During the Hammer throw, when the distance of the first two numbers of a throw matches the last two, balloons fly through the air. (Same code as the discus code, but works on the hammer throw as well.)

UFO

You need to get a throwing angle above 75 degrees during a javelin throw without scratching. When this occurs, you “shoot down” a UFO.

Space Shuttle

To see the space shuttle, you must clear a pole vault of 4.50m on your first attempt. Then you must clear a height of 5.00m on your second attempt. When done correctly, you can catch a glimpse of the space shuttle.

T-Rex

Throw the shot put a distance in which all the numbers match (for example, 11.11m) to see a tyrannosaurus rex outside the stadium.

Gopher

During the triple jump, a gopher pops out of the ground when the last three numbers of your jump distance match (for example, 12.22m).

JET MOTO

Easier Tricks

When you beat the game a bubble will appear saying "Codes Enabled". At this screen press Down, ●, Left, L1, Left, Right, Left, Right. This will make tricks easier and faster to execute.

Joyride Super Flips

On Joyride, go to the ramp (not the broken highway). Jump off the ramp and turn around. Go towards the side of the ramp and go to the first line that appears on the ramp. Slowly ride up to it and then when you hit it, it will send you flying. While in the air you can do three backflips with three twists if you press and hold L1 or R1 and Up or Down.

Galaga Cheat

At the beginning of the game, don't shoot at the ships as they go into their first formation. When they're all assembled, destroy all of the ships except the yellow/blue ships in the first row from the left. Let the two remaining ships fly and shoot at you for about 15 minutes. (You can't fire even *one* shot.) After the ships have stopped firing, destroy the last two ships. From this point on, no ships will shoot at you.

Volleyball

Play a two-player game on the Cove stage (the beach with the temples on one side).
